# ABOUT LEX GAZETTE ACADEMY

Lex Gazette Academy stands as an independent, academic, and research-driven institution, established under the patronage of the Ram Shree Education Research and Social Welfare Foundation—a not-for-profit organization registered under the Madhya Pradesh Societies Registration Act and duly listed with the NITI Aayog, Government of India. Functioning as the dedicated educational and intellectual arm of the Foundation, the Academy is committed to advancing quality education, cutting-edge research, and interdisciplinary innovation that responds to the dynamic needs of society.

At its core, Lex Gazette Academy serves as a vibrant hub for students, scholars, educators, practitioners, and professionals, offering a wide spectrum of programs ranging from international and national conferences, seminars, workshops, guest lectures, training sessions, certificate courses, and faculty development programs. With a distinctive focus on law, social sciences, and business studies, the Academy integrates academic rigor with practical exposure, encouraging critical thinking, policy-oriented research, experiential learning, and community engagement.

## ABOUT THE FACULTY OF LAW, VGU

At Department of Law, Vivekananda Global University, our focus is to develop and advance interdisciplinary legal education and scholarship. We challenge normative pedagogy and believe in establishing and implementing new approaches towards teaching and learning which lead the University to NAAC A+ accreditation in a short span of a decade since its inception. As a leading research-oriented institute, we encourage unrestricted academic imagination in the belief that thinking outside the box leads to original, relevant and impactful research. Thus, we incubate research on a range of diverse and unconventional ideas, including but not limited to, intellectual property, constitutional law, and criminal law. We take pride that our effective and impact driven research has on numerous occasions received recognition. Since our inception in 2013, we have become one of India's premier law universities. Our students have gone on to excel in diverse fields, such as academia, legal practice, administrative services and entrepreneurship. This is a testament not only to our students' drive, talent and intellect but to our sincerity and diligence as well. We value and embrace diversity of thoughts, opinions, values and expressions. We believe that educational institutions should be fair and inclusive spaces that help everyone in achieving their true potential.

# ABOUT THE WORKSHOP

Research and academic writing are the cornerstones of higher education, innovation, and intellectual growth. For students and early-career scholars, the ability to identify research problems, analyze them critically, and present findings in a structured and impactful manner is not only an academic requirement but also a pathway to conferences, peer-reviewed publications, fellowships, and future opportunities in academia, policy, and industry.

This five-day workshop on Research Methodology and Academic Writing is designed to provide participants with a comprehensive foundation in research skills and scholarly communication. The programme will offer step-by-step guidance on selecting a relevant research topic, conducting a systematic literature review, framing research questions, designing an appropriate methodology, and crafting well-structured research papers and articles. Participants will also gain practical training in referencing techniques, citation management tools, plagiarism policies, and the journal publication process in reputed, double-blind, peer-reviewed national and international journals.

Through a blend of interactive sessions, expert-led lectures, and hands-on exercises, the workshop emphasizes experiential learning and skill-building. By the end of the programme, participants will not only acquire the technical know-how of academic writing but also the confidence to transform ideas into impactful research outputs that meet global academic standards.

**Intended Outcomes:** The workshop seeks to enable participants to conceptualize and frame researchable problems, critically engage with existing scholarship, design and apply suitable methodologies, and acquire proficiency in academic writing. Participants will also learn to use citation and referencing tools effectively, adhere to plagiarism policies, and navigate the publication process with competence. Ultimately, the initiative aims to cultivate originality, academic integrity, and confidence, empowering participants to publish their work in reputed national and international journals and contribute meaningfully to academia, policymaking, and industry-driven research.

# OBJECTIVES OF THE WORKSHOP

The primary objective of this National Workshop on Research Methodology and Academic Writing is to empower students and young scholars with the skills, techniques, and confidence required to conduct high-quality research and publish impactful academic work.

The workshop seeks to:

- Introduce participants to the fundamentals of research, including problem identification, formulation of precise research questions, and the design of appropriate methodologies.
- Strengthen academic writing skills by training participants in drafting research papers, structuring abstracts, and adopting suitable scholarly writing styles.
- Familiarize students with literature review strategies, citation and referencing practices, plagiarism policies, and digital research tools essential for maintaining academic integrity.
- Provide practical insights into the publication process, including journal selection, submission protocols, peer review mechanisms, and indexing standards in reputed blind peer-reviewed national and international journals.
- Cultivate a culture of critical thinking, originality, and ethical research practices, encouraging students to contribute meaningfully to the national and global academic community.
